EDUCATION

William Paterson University

Bachelor of Science in Computer Science

Wayne, NJ

Jan. 2024 – May 2026

Bergen Community College

Associate of Science in Computer Science and Programming

Paramus, NJ

Sep. 2021 – Dec. 2023

CERTIFICATIONS

TestOut Ethical Hacker Pro

CompTIA

May 2026

EXPERIENCE

Customer Service Associate

IKEA

June 2024 – Present

Paramus, NJ

- Supported customers at cash lanes and online order pickups, ensuring accurate transactions and positive service experiences
- Resolved customer inquiries and issues efficiently while adhering to company service standards
- Collaborated with team members to manage high-volume workflows during peak hours

Crew Member

McDonald's

Jan. 2019 – May 2024

Saddle Brook, NJ

- Delivered consistent customer service in a fast-paced environment while maintaining quality and efficiency
- Processed cash and electronic transactions accurately and responsibly
- Worked collaboratively with team members to maintain cleanliness, safety, and operational efficiency

PROJECTS

Personal Portfolio Website | *Next.js, Tailwind CSS, TypeScript, Vercel* | [GitHub](#) | [Live](#)

2026

- Designed and built a personal portfolio website from scratch using Next.js and Tailwind CSS
- Implemented a class-based dark mode toggle with localStorage persistence and flash prevention
- Structured the codebase using reusable React components with a consistent design system using CSS variables
- Deployed to Vercel with automatic redeployment on every GitHub push

ATM Software Engineering Project | *C++, UML, Object-Oriented Design*

Sep. 2025 – Dec. 2025

- Collaborated in a team-based, semester-long software engineering project following a structured development lifecycle
- Performed requirements analysis and converted incomplete specifications into detailed use case models
- Designed UML artifacts including use case diagrams, class diagrams, and communication diagrams
- Implemented core ATM system functionality in C++ using object-oriented principles such as inheritance and encapsulation

Wireless Network Security Research | *WPA2/WPA3, Linux, aircrack-ng*

Jan. 2025 – May 2025

- Conducted a comparative analysis of WPA2 and WPA3 wireless security protocols
- Evaluated encryption methods, authentication mechanisms, and common wireless attack vectors
- Demonstrated WPA2 handshake capture and cracking to highlight real-world vulnerabilities
- Authored a structured technical research report using IEEE-style academic formatting

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: Next.js, Tailwind CSS, Node.js

Developer Tools: Git, GitHub, VS Code, Linux, XAMPP, Vercel

Cybersecurity & Networking: Kali Linux, Wireshark, Nmap, Zenmap, WPA2/WPA3, Network Security

Concepts: Object-Oriented Programming, Data Structures, Debugging, Component-Based Architecture
